EARLY CARE & EDUCATION

Aroostook County Action Program

WHAT IS HEAD START?

Head Start programs promote the school readiness of infants, toddlers, and preschool-aged children from low-income families. Services are provided in licensed centers and children's homes. Head Start programs also engage parents or other key family members in positive relationships, with a focus on family wellbeing. Parents participate in leadership roles, including having a say in program operations.

Head Start programs support children's growth in a positive learning environment through a variety of services, which include: early learning and development, health and physical development and family well-being.

Head Start programs are available at no cost to children ages birth to 5 from low-income families. Programs may provide transportation to the centers so enrolled children can participate regularly. Families and children experiencing homelessness, and children in the foster care system are also eligible. Additionally, Head Start services are available to children with disabilities and other special needs.

WHICH EARLY CARE & EDUCATION PROGRAM IS RIGHT FOR YOUR FAMILY?

Early Head Start is available for income eligible prenatal through age three children. Centers are located in:

- Caribou
- Houlton
